Accredited with NAAC "B" Grade

Affiliated to Tamil Nadu Teachers Education University, Chennai  
Periyavada, Vridhachalam-606104.  
Cuddalore District, Tamil Nadu, India

## M.Ed. VIVA VOCE MODEL EXAMINATION: CHAPTER WISE QUESTIONS

### Chapter 1

1. What is the title of your research?
2. Which method you have adopted for your research?
3. Which sampling technique u have used in your study?
4. What are the main objectives of your study?
5. What are the hypotheses you have framed?
6. What is your "Statement of the Problem"?
7. What is meant by objectives?
8. What is meant by hypotheses?
9. What is meant by limitations?
10. Differentiate limitations & delimitations.
11. List out the delimitations of the research.
12. What is meant by operational definition?
13. Explain your research variables.
14. What is independent & dependent variable and explain it in your research topic?
15. How many pages in your chapter 1?

### Chapter 2

1. What is meant by Review of Related Literature?
2. How many Reviews you have reviewed for your research?

3. What is meant by Review of Related Studies?
4. How many Indian and Foreign studies you have reviewed?
5. What is meant by Plagiarism?
6. What is meant by Research Gap?
7. Did you fill the research gap?
8. How Review of Related Literature guided you to proceed your research smoothly?
9. Explain some of the reviews' findings.
10. List out the sources from where you have collected the reviews.

## **Chapter 3**

1. What is meant by Population?
2. What is meant by sample?
3. What is the sampling technique you have adopted for your research?
4. How many samples do you have chosen?
5. Who are all your samples?
6. List out the tools you have used in your research for collecting data.
7. Did you prepare a tool?
8. If yes, then explain the tool preparation.
9. What is meant by standardized tool?
10. What is pilot study?
11. What is meant by reliability?
12. Did you find the reliability of your tool?
13. How you found the reliability of your research tool?
14. How did you establish the validity of your tool?
15. What are all your background variables?
16. What type of tool you used for the study?

17. Explain scoring procedure for your tool.
18. Explain the procedure you have adopted for collecting data.
19. What are the important statistical techniques you have used for analysing the data?
20. What is t test?

## **Chapter 4**

1. What are the statistics calculations you used in your research?
2. What is descriptive analysis?
3. What is inferential analysis?
4. When will you used the t and F-test?
5. What is meant by correlation?
6. How did you interpret the calculated correlation coefficient?
7. What is degree of freedom?
8. Which level of significant difference you used in your research?
9. Which level of confident difference you used in your research?
10. How many tables you used in your chapter IV?
11. How many graphs you draw in your chapter IV?
12. What is the formula for 't' test, 'F' test, 'chi-square' test, correlation etc.
13. What is the formula for Mean/ standard deviation / percentage?

## **Chapter 5**

1. What are the major findings of your research?
2. List out the important educational implications you suggested as per your research findings?
3. What are your important suggestions for further research?
4. What is the conclusion of your research?

5. Explain the summary of your research.

## **References**

1. Which type of reference style did you used in your research?
2. What is the expansion of APA?
3. What is the expansion of MLA?
4. How many references did you gave in your research work?
5. Give the difference between reference and bibliography. 6. How many journals you have referred?

## **Appendices**

1. What is the difference between appendix and appendices?
2. How many appendixes did you attach in your research?
